

The Collective Stitch Cross Stitch Event

June 1—August 31

go to: collectivestitch.com for a list of participating shops

Participating shops will each have a different design on a one page copy which will be given to visitors to their shop during the event.

2018 will have a theme of “Winter” and a design size of 84 stitches wide by between 28 and 56 stitches high. This is the same size as the 2016 “Autumn” themed project and ideally give stitchers the option of having a similar, seasonal companion piece.

Below is a blank chart of the size specifications for the design. The dotted line indicates the minimum height of 28 stitches. The width of the design should be 84 stitches.
